# Write a function to find sum of first N even no.s

**Function:**

CREATE OR REPLACE FUNCTION sumeven(limit NUMBER)

RETURN NUMBER IS

s NUMBER:=0;

BEGIN

for i in 1..limit

LOOP

if mod(i,2) = 0

then

s:=s+i;

end if;

END LOOP;

RETURN s;

END;

**Function call:**

DECLARE

limit NUMBER:=&limit;

s NUMBER;

BEGIN

s:=sumeven(limit);

dbms_output.put_line('Sum of even digits: '||s);

END;

**Output:**

```
SQL> /
Enter value for limit: 10
old   2:        limit NUMBER:=&limit;
new   2:        limit NUMBER:=10;
Sum of even digits: 30
